2.5.1. Produce an immunization report for Juana Mariana Gonzales including all history

Test Step Type: SUT_MANUAL

The EMR is used to produce an immunization report for the patient including all history (the report can be provided in various formats - e.g., print, send to patient portal, etc.).

Test Story

Description

Following the vaccination visit, the provider uses the EMR to produce an immunization report for the patient including all history (the report can be provided in various formats - e.g., print, send to patient portal, etc.)

Comments

No Comments

Pre Condition

Initial Data Load completed with demographic data, vaccination history, and clinical history. Historical Vaccination reconciled and loaded into the EMR. New vaccinations have been administered.

Post Condition

The patient/parent has been provided a patient immunization history report.

Test Objectives

Produce Standard Patient Immunization History Report: The EHR or other clinical software system produces a report of a patient's immunization history that is appropriate for various entities, such as schools and day-care centers.

Evaluation Criteria

The following patient demographics are displayed:

Patient Identifier Number: **Vendor Assigned**

Patient Identifier Type Code: **Vendor Assigned**

Patient Name: **Juana Mariana Gonzales**

Date/Time of Birth: **11/01/2010 11:05am**

Sex: **Female**

Patient Address: **4345 Standish Way, Stamford, CT, 06903**

Multiple Birth: **N**

Birth Order: **NA**

The following Vaccination History is displayed:

Vaccine Group: Hep B Peds NOS

Administered: hepatitis B vaccine, pediatric or pediatric/adolescent dosage (CVX 08)

ENGERIX-B (NDC 58160-0820-11)"

3. Juan Marcel Gonzales Visit

No Description

3.1. Query the Registry for Juan Marcel Gonzales

EMR Generates a Z44 query to the Immunization Registry to retrieve the Evaluated History and Forecast for Juan Marcel Gonzales.

Test Story

| |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description |
| Querying the registry will consist of the vendor creating Z44 messages for Juan Marcel Gonzales to be sent to the registry. The response will be processed as part of the 'Display, Reconcile, Import and Update Immunization Information' activity. |

3.1.1. Select Patient Juan Marcel Gonzales

Test Step Type: SUT_MANUAL

Select patient Juan Marcel Gonzales, distinguishing the patient from other patients with similar demographics (similar names).

Test Story

| |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description Juan Marcel Gonzales is selected as the patient and his record is opened in the EMR. |
| Comments No Comments |
| Pre Condition Juan Marcel Gonzales Initial Data Load completed. |
| Post Condition Juan Marcel Gonzales is the active working patient in the EMR. |
| Test Objectives <i>Select New Patient:</i> The system must allow a user to enter distinguishing information about patients so that providers can uniquely identify patients who have similar sounding names or other similar identifying information. For example, twins living in the same household will have similar dates of birth, addresses, and may have similar names. EHRs or other clinical software must be able to store information to successfully match with patients in immunization registries, if the information is available. The information includes the mother's maiden name, whether the patient was part of a multiple birth, and the order of the multiple birth. This information allows the provider to correctly identify the patient and also helps assure a match when the EHR sends the patient's information to external systems such as an immunization registry. |
| Evaluation Criteria Tester shall verify that the product can distinguish Juan Marcel Gonzales from similar sounding names using all of the pediatric demographics: <ul style="list-style-type: none">• Patient ID (previously listed as "Medicaid Number") - Vendor supplied• Patient ID: Assigning Authority ID (i.e., owning source)/Facility Name - Shoreline Pediatrics• Patient ID: Type (e.g., medical record number, IIS ID) - Vendor supplied• Patient Name: First - Juan• Patient Name: Middle - Marcel• Patient Name: Last - Gonzales• Patient Date of Birth - 03/04/2014• Birth Time - 11:00• Patient Gender (Administrative Sex) - M• Patient Multiple Birth Indicator - No• Patient Birth Order - NA• Responsible Person Name: First - Manuel• Responsible Person Name: Middle - Marcel• Responsible Person Name: Last - Gonzales• Responsible Person Name: Relationship to Patient - Father• Mother's Name: First - Anita• Mother's Name: Middle - Francesca• Mother's Name: Last - Gonzales• Mother's Name: Maiden Last - Morales• Patient Address: Street - 4623 Standish Way• Patient Address: City - Stamford• Patient Address: State - CT• Patient Address: Country - US• Patient Address: Zipcode - 06903• Patient Address: County of Residence - Fairfield• Race - White• Ethnicity - Hispanic or Latino• Birthing Facility Name (Birth Delivery Location Address BDL) - Shoreline Hospital 325 Shoreline Drive, Stamford Connecticut 06901• Patient Birth State - CT• Patient Primary Language - English• Patient Telephone Number - (203) 555-1213• Patient Telephone Number Type (e.g., home, cell) - home• Patient E-mail Address -• Publicity Code• Protection Indicator• Protection Indicator Effective Date• Immunization Registry Status• Preferred Contact Method - Phone |
| Notes for Testers No Note |

3.1.2. Query Registry for vaccination history and forecast for Juan Marcel Gonzales

Test Step Type: SUT_INITIATOR

The EMR generates a Z44 query for immunization history and forecast correctly and without omission according to supplied test data.

Test Story

| |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description |
| The provider uses the EMR to query the Immunization Registry for an Evaluated History and Forecast based on information known to the Immunization Registry. |
| Comments |
| No Comments |
| Pre Condition |
| Juan Marcel Gonzales Initial Data Load is completed. |
| Post Condition |
| The Immunization Registry responds with Evaluated Vaccine History and Forecast for Juan Marcel Gonzales. |
| Test Objectives |
| <i>Real Time Request/Receive Patient Immunization History:</i> The system sends a request to the public health immunization registry "on demand" (e.g., those without scheduled appointments). The request includes the identifying information the immunization registry needs to match each patient with those in the registry including, if present, the mother's maiden name, a multiple birth indicator, and the birth order. The request also is sent in a pre-determined format the registry can read and interpret (Query Response Grammar (RSP) – HL7 version 2.5.1 Implementation Guide for Immunization Messaging Release 1.5). |
| Evaluation Criteria |
| Tester shall verify that the vendor can produce a valid Z44 query in accordance with the test data correctly and without omission. |
| Tester shall verify that the data in the message corresponds to the data in the EMR and contains all test data attributes supplied. |
| Notes for Testers |

3.2. Juan Marcel Gonzales Display Reconcile Update Immunization Information

Using the Z42 Response to Immunization Registry Query, the EMR displays the Evaluated History and Forecast to the user for reconciliation and update.

Test Story

| |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description |
| The vendor will receive information back from the registry and show the ability to view and reconcile, and import the information returned by the registry (NOTE: the Z42 message will be provided either manually, or as part of the tool). This test will also look at the system's ability to view the forecast returned by the registry, and create a new forecast after reconciling the information. |

3.2.1. View and import response to request for vaccination history for Juan Marcel Gonzales

Test Step Type: TA_RESPONDER

The EMR displays the Immunization History results (Z42) returned in response to the Z44 Query and import them into the EMR

Test Story

Description

The physician accesses the record for Juan Marcel Gonzales and:

??? Accepts the vaccines provided by the registry as this is a new patient and there are no prior vaccines recorded

??? Views the registry history including the second dose of Hepatitis B vaccine given late (at 2 years of age) and no history of a third dose; influenza vaccine was also not given since 2013

Comments

There is no reconciliation step as there are no historical immunizations in the EMR. All will be imported from the Z42 response.

Pre Condition

A Z44 query has been submitted to the Immunization Registry and a Z42 response is provided back to the EMR and the response is available in the EMR for reconciliation and import.

Post Condition

Evaluated Immunization History returned from the registry is reconciled and imported into the patient record (Juan Marcel Gonzales)

Test Objectives

Request/Receive Patient Immunization Data and Identify Source: The EHR or other clinical software is able to store immunization history accepted electronically from other sources (such as a public health immunization registry consistent with HL7 version 2.5.1, Implementation Guide for Immunization Messaging Release 1.5) or communicated by the patient and manually entered by the clinician. When viewing such information, the provider can determine which immunizations were administered by the practice, which were entered manually as patient-reported, and which were accepted electronically from the public health registry.

Evaluation Criteria

1. The EMR displays the information returned from the Immunization Registry according to the Juror Document.
2. The user imports returned vaccinations as follows:

a. Vaccinations Imported:

hepatitis B vaccine, pediatric or pediatric/adolescent dosage (CVX 08) administered 3/3/2014
hepatitis B vaccine, pediatric or pediatric/adolescent dosage (CVX 08) administered 4/15/2014
diphtheria, tetanus toxoids and acellular pertussis vaccine, 5 pertussis antigens (CVX 106) administered 5/15/2014
diphtheria, tetanus toxoids and acellular pertussis vaccine, 5 pertussis antigens (CVX 106) administered 7/13/2014
diphtheria, tetanus toxoids and acellular pertussis vaccine, 5 pertussis antigens (CVX 106) administered 9/16/2014
diphtheria, tetanus toxoids and acellular pertussis vaccine, 5 pertussis antigens (CVX 106) administered 9/20/2015
Haemophilus influenzae type b vaccine, PRP-OMP conjugate (CVX 49) administered 5/14/2014
Haemophilus influenzae type b vaccine, PRP-OMP conjugate (CVX 49) administered 7/21/2014
Haemophilus influenzae type b vaccine, PRP-OMP conjugate (CVX 49) administered 9/27/2014
Haemophilus influenzae type b vaccine, PRP-OMP conjugate (CVX 49) administered 5/4/2015
poliovirus vaccine, inactivated (CVX 10) administered 5/14/2014
poliovirus vaccine, inactivated (CVX 10) administered 7/21/2014
poliovirus vaccine, inactivated (CVX 10) administered 10/15/2014
pneumococcal conjugate vaccine, 13 valent (CVX 133) administered 5/18/2014
pneumococcal conjugate vaccine, 13 valent (CVX 133) administered 7/21/2014
pneumococcal conjugate vaccine, 13 valent (CVX 133) administered 9/27/2014
pneumococcal conjugate vaccine, 13 valent (CVX 133) administered 5/4/2015
rotavirus, live, monovalent vaccine (CVX 119) administered 5/18/2014
rotavirus, live, monovalent vaccine (CVX 119) administered 7/21/2014
Influenza, injectable, quadrivalent, preservative free, pediatric (CVX 161) administered 9/27/2014
Influenza, injectable, quadrivalent, preservative free, pediatric (CVX 161) administered 10/20/2015
hepatitis A vaccine, pediatric/adolescent dosage, 2 dose schedule (CVX 83) administered 5/15/2015
measles, mumps, rubella, and varicella virus vaccine (CVX 94) administered 10/20/2015

DISPLAY VERIFICATION

This Test Case-specific Juror Document provides a checklist for the Tester to use during certification testing for assessing the EHR technology's ability to display required core data elements from the information received in the Evaluated Immunization History and Immunization Forecast Z42 response message. Additional data from the message or from the EHR are permitted to be displayed by the EHR. Grayed-out fields in the Juror Document indicate where no data for the data element indicated were included in the Z42 message for the given Test Case.

The format of this Juror Document is for ease-of-use by the Tester and does not indicate how the EHR display must be designed.

The Evaluated Immunization History and Immunization Forecast data shown in this Juror Document are derived from the Z42 message provided with the given Test Case; equivalent data are permitted to be displayed by the EHR. The column headings are meant to convey the kind of data to be displayed; equivalent labels/column headings are permitted to be displayed by the EHR.

| Patient Information | | |

| Namespace ID | MYIIS | |
| ID Type | SR | |
| Name | Juan Marcel Gonzales | |
| Date of Birth | 03/04/2014 | |
| Sex | Male | |
| Address 1 | | |
| Street | 4623 Standish Way | |
| Other Designation | | |
| City | Stamford | |
| State | CT | |
| Zip Code | 06903 | |
| Country | USA | |
| Address Type | L | |
| Mother's Maiden Name | Anita Francesca Morales | |

When displayed in the EHR with the Evaluated Immunization History and Immunization Forecast, these patient demographics data may be derived from either the received immunization message or the EHR patient record. When displaying demographics from the patient record, the EHR must be able to demonstrate a linkage between the demographics in the message (primarily the patient ID in PID-3.1) and the patient record used for display to ensure that the message was associated with the appropriate patient.

3.2.2. View the vaccination forecast for Juan Marcel Gonzales returned by the Immunization Registry

Test Step Type: TA_RESPONDER

The EMR displays the current Immunization Forecast to the user for Juan Marcel Gonzales as returned by the Immunization Registry Z42 response.

Test Story

| |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description |
| The physician accesses the record for Juan Marcel Gonzales and: • Views the vaccine forecast provided by the Immunization Registry |
| Comments |
| No Comments |
| Pre Condition |
| A Z44 query has been submitted to the Immunization Registry, a Z42 response is provided back to the EMR, and the vaccine forecast from the response is available in the EMR for viewing |
| Post Condition |
| The vaccine forecast from the Immunization Registry is available for viewing in the EMR. |
| Test Objectives |
| View Immunization Forecast: The system provides a view of the immunization forecast provided by the public health immunization registry (IIS). The display includes the forecast from the registry and includes recommended vaccination dates, minimum (earliest) date, ideal date, and maximum (latest) date for each vaccine included in the forecast. |
| Evaluation Criteria |
| 1. The EMR displays the information returned from the Immunization Registry according to the Juror Document. |
| Notes for Testers |
| No Note |

DISPLAY VERIFICATION

This Test Case-specific Juror Document provides a checklist for the Tester to use during certification testing for assessing the EHR technology's ability to display required core data elements from the information received in the Evaluated Immunization History and Immunization Forecast Z42 response message. Additional data from the message or from the EHR are permitted to be displayed by the EHR. Grayed-out fields in the Juror Document indicate where no data for the data element indicated were included in the Z42 message for the given Test Case.

The format of this Juror Document is for ease-of-use by the Tester and does not indicate how the EHR display must be designed.

The Evaluated Immunization History and Immunization Forecast data shown in this Juror Document are derived from the Z42 message provided with the given Test Case; equivalent data are permitted to be displayed by the EHR. The column headings are meant to convey the kind of data to be displayed; equivalent labels/column headings are permitted to be displayed by the EHR.

| Patient Information | | |

| City | Stamford | |
| State | CT | |
| Zip Code | 06903 | |
| Country | USA | |
| Address Type | L | |
| Mother's Maiden Name | Anita Francesca Morales | |

When displayed in the EHR with the Evaluated Immunization History and Immunization Forecast, these patient demographics data may be derived from either the received immunization message or the EHR patient record. When displaying demographics from the patient record, the EHR must be able to demonstrate a linkage between the demographics in the message (primarily the patient ID in PID-3.1) and the patient record used for display to ensure that the message was associated with the appropriate patient.

3.2.3. View the vaccination forecast for Juan Marcel Gonzales

Test Step Type: SUT MANUAL

The EMR displays the current Immunization Forecast to the user for Juan Marcel Gonzales either as returned by the IIS in prior step, or as generated thru any local means.

Test Story

Description

The physician accesses the record for Juan Marcel Gonzales and, once the vaccine history is reconciled in the EMR, the vaccine forecast is updated :

• The provider views the updated vaccine forecast (either as provided by the Immunization Registry or as determined through EMR defined methods)

Comments

The vaccine forecast may be imported from the Immunization Registry Vaccination History and Forecast (Z42) response, or it may be generated by EMR defined means.

Pre Condition

EMR Vaccine History is imported from the Immunization History returned from the Immunization Registry (previous step 'View and import response to request for vaccination history for Juan Marcel Gonzales)

Post Condition

A vaccine forecast based upon the imported vaccine history is available to the user.

Test Objectives

View Reconciled Immunization Forecast: The EHR or other clinical software system has the ability to re-evaluate and update the immunization forecast using a patient’s newly updated immunization history, where the updated forecast results from the reconciliation of immunization data contained in the public health immunization registry with immunization data contained in the EHR. Processing the new forecast can be internal to the EHR or it can use an external forecasting service.

Evaluation Criteria

1. Tester verifies that the vendor can display the immunization forecast based upon the reconciled vaccination history:
2. Verify that the EMR includes in the vaccine forecast:

Hep B Peds NOS due on 5/21/2012

DTaP due on 11/22/2015

IPV due on 11/22/2015

MMR due on 11/22/2015

Varicella due on 11/22/2015

Influenza, unspecified formulation due on Oct 22, 2015 or later

Notes for Testers

3.3.1. Order intranasal, live virus influenza vaccine and view asthma contraindication

Test Step Type: SUT_MANUAL

Selects to order intranasal, live virus influenza vaccine and views information about patient asthma problem which is a contraindication to the intranasal vaccine.

Test Story

Description

The physician accesses the record for Juan Marcel Gonzales and:

• Orders administration of Influenza vaccine (intranasal, live virus vaccine)

• Receives notification the patient has asthma, a relative contraindication for intranasal influenza vaccine

Comments

No Comments

Pre Condition

Initial Data Load completed with demographic data, vaccination history, and clinical history. Historical Vaccination reconciled and loaded into the EMR.

Post Condition

User notified of history of contraindication to influenza virus vaccine, live, attenuated, for intranasal use (CVX 111) of asthma on problem list. Order is changed to Influenza, injectable, quadrivalent, preservative free, pediatric (CVX 161).

Test Objectives

Modify Antigen Recommendations Based on Active Diagnoses: The system notifies the provider of any conflicts between recommended vaccines in the updated forecast and the patient's current or historical diagnoses.

Enter Vaccination Order: The EHR or other clinical software system allows providers to order immunizations for a patient using filters for type of vaccine, including combination vaccines.

Evaluation Criteria

EMR Records the following order information and Alert:

| | |
|----------------------------------------|----------------------------------------------------------------------------------------------------|
| Entered BY | Sandra Molina |
| Ordering Provider | Frank Smith |
| Entering Organization | Shoreline Pediatrics |
| Vaccine Event information source | New immunization record (NIP001 00) |
| Value/Text for Vaccine Type | influenza virus vaccine, live, attenuated, for intranasal use (CVX 111) |
| Date/Time Vaccine Refusal was recorded | Current Date |
| Alert | Notification the patient has asthma, a relative contraindication for intranasal influenza vaccine. |

The Provider changes the order to:

| | |
|---------------|-----------------------------------------------------------------------------|
| Vaccine Type: | Influenza, injectable, quadrivalent, preservative free, pediatric (CVX 161) |
|---------------|-----------------------------------------------------------------------------|

Notes for Testers

No Note

3.3.2. Orders administration of Hepatitis B vaccine

Test Step Type: SUT MANUAL

The provider orders a Hepatitis B vaccine (dose 3).

Test Story

Description

As indicated by the vaccine forecast, the third Hepatitis B is overdue, and is ordered.

Comments

No Comments

Pre Condition

Initial Data Load completed with demographic data, vaccination history, and clinical history. Historical Vaccination reconciled and loaded into the EMR. Vaccine forecast reviewed.

Post Condition

Hepatitis B vaccine is ordered for the patient.

Test Objectives

Enter Vaccination Order: The EHR or other clinical software system allows providers to order immunizations for a patient using filters for type of vaccine, including combination vaccines.

Evaluation Criteria

EMR Records the following order information and Alert:

| | |
|-----------------------------------|------------------------------------------------------------------------|
| Entered BY | Sandra Molina |
| Ordering Provider | Frank Smith |
| Entering Organization | Shoreline Pediatrics |
| Vaccine Event information source | New immunization record (NIP001 00) |
| Order Value/Text for Vaccine Type | hepatitis B vaccine, pediatric or pediatric/adolescent dosage (CVX 08) |
| Date/Time Vaccine was recorded | Current Date |

Notes for Testers

No Note

3.3.3. Orders administration of DTaP vaccine and alerted that the dose is too early

Test Step Type: SUT MANUAL

The provider orders a DTaP vaccine (dose 5). The EMR provides an alert that the vaccine dose is too early.

Test Story

Description

The fifth DTaP is ordered, and the provider is notified that the dose is too early.

Comments

No Comments

Pre Condition

Initial Data Load completed with demographic data, vaccination history, and clinical history. Historical Vaccination reconciled and loaded into the EMR. Vaccine forecast is available in the EMR.

Post Condition

DTaP vaccine is ordered for the patient, and provider is notified that the dose is too early.

Test Objectives

Receive Dose Not Indicated Alert for Single Vaccine Order: The EHR or other clinical software system notifies the provider in instances when there are single or combination vaccine orders that are inconsistent with the expected timing intervals included in the vaccine forecast. Inconsistencies include suggestion of different date(s) for ordering the vaccine(s) or indication the vaccine(s) is/are no longer required.

Enter Vaccination Order: The EHR or other clinical software system allows providers to order immunizations for a patient using filters for type of vaccine, including combination vaccines.

Evaluation Criteria

EMR Records the following order information and Alert:

| | |
|--------------------------------------|---------------------------------------------------------------------------------------------|
| Entered BY | Sandra Molina |
| Ordering Provider | Frank Smith |
| Entering Organization | Shoreline Pediatrics |
| Vaccine Event information source | New immunization record (NIP001 00) |
| Value/Text for Vaccine Type | diphtheria, tetanus toxoids and acellular pertussis vaccine, 5 pertussis antigens (CVX 106) |
| Date/Time Vaccine order was recorded | Current Date |
| Alert | Notification that the dose is too early |

Notes for Testers

No Note

3.3.4. Records Hepatitis B Vaccine lot number with expired lot alert

Test Step Type: SUT MANUAL

The provider records the vaccine administration lot number in the EMR and is alerted of the expired lot.

Test Story

Description

The nurse documents administration lot number for the Hepatitis B vaccine
• Is prevented from ordering the Hepatitis B lot as it has expired
• Documents administration from a different lot that is not expired

Comments

Pre Condition

Order is placed for Hepatitis B vaccine.

Post Condition

The provider has been notified of the expired Hepatitis B vaccination lot. Documentation of a lot to be administered that is not expired is recorded in the EMR.

Test Objectives

Notify of Vaccine Dose Expiration: The EHR or other clinical software system notifies the provider administering a vaccine if the dose chosen for administration is expired.

Evaluation Criteria

EMR Records the following order information and Alert:

| | |
|--------------------------------------|---------------------------------------------------------------------------------------------------------|
| Entered BY | Sandra Molina |
| Ordering Provider | Frank Smith |
| Entering Organization | Shoreline Pediatrics |
| Vaccine Event information source | New immunization record (NIP001 00) |
| Date/Time of Start of Administration | Current Date |
| Vaccine Administered | hepatitis B vaccine, pediatric or pediatric/adolescent dosage (CVX 08) ENGERIX-B (NDC 58160-0820-11) |
| Lot Number (Expired) | 6332FK18 |
| Substance Expiration Date (Expired) | 6/15/2015 |
| Substance Manufacturer Name | GlaxoSmithKline Biologicals SA (MVX SKB) |
| Alert | Alerts user to expired lot |

Notes for Testers

No Note

3.3.5. Record Hepatitis B Vaccine administration

Test Step Type: SUT MANUAL

The EMR is able to document all attributes associated with the new vaccine administration.

Test Story

Description

The nurse administers the Hepatitis B vaccine
• Documents all required information for the vaccine

Comments

No Comments

Pre Condition

Order is placed for Hepatitis B vaccine.

Post Condition

The Hepatitis B vaccination is recorded in the EMR.

Test Objectives

Record Vaccine Administration: The EHR or other clinical software system records information about each vaccine administered. The EHR records this information as structured data elements, including, at a minimum: date administered, administering clinician, site of administration (e.g., left arm), immunization type, product, lot number, manufacturer, Vaccine Information Statement date, and quantity of vaccine/dose size.

Evaluation Criteria

EMR Records the following vaccine administration information:

| | |
|--------------------------------------|---------------------------------------------------------------------------------------------------------|
| Entered BY | Sandra Molina |
| Ordering Provider | Frank Smith |
| Entering Organization | Shoreline Pediatrics |
| Vaccine Event information source | New immunization record (NIP001 00) |
| Date/Time of Start of Administration | Current Date |
| Vaccine Administered | hepatitis B vaccine, pediatric or pediatric/adolescent dosage (CVX 08) ENGERIX-B (NDC 58160-0820-11) |
| Administered Amount (of Vaccine) | 0.5 |
| Administered Units (of Measure) | mL |
| Administration Notes | |
| Administering Provider | Sandra Molina |
| Administered-at Location | 400 Shoreline Drive, Stamford Connecticut 06901 |
| Lot Number | 6332FK26 |
| Substance Expiration Date | 10/31/2016 |
| Substance Manufacturer Name | GlaxoSmithKline Biologicals SA (MVX SKB) |
| Completion Status | CP |
| Route of Administration | Intramuscular (NCIT C28161, HL70162: IM) |
| Administration Site | Left Deltoid (HL70162 LD) |
| VFC Eligibility | No |

Notes for Testers

No Note

3.3.6. Records Influenza Vaccine administration with VFC eligibility checking

Test Step Type: SUT MANUAL

The provider records the vaccine administration from a VFC source and alerted that the patient is not VFC eligible.

Test Story

Description

The nurse documents administration for the inactivated influenza vaccine from a VFC source
• Is alerted that the patient is not eligible for VFC
• Orders a different non-VFC lot of inactivated influenza vaccine

Comments

This step covers data quality checking as an informative aspect of vaccine administration

Pre Condition

Order is placed for inactivated influenza vaccine.

Post Condition

The user is notified of vaccine dose ineligibility.

Test Objectives

Notify of Vaccine Dose Ineligibility: The EHR or other clinical software system provides a method for alerting a provider if a vaccine is selected for a patient who is not eligible for the inventory item selected.

Evaluation Criteria

The provider documents a VFC lot to be administered in the EMR. Once notified that the patient is not eligible for the VFC, the a non-VFC lot is selected.

| | |
|--------------------------------------|----------------------------------------------------------------------------------------------------------------------|
| Entered BY | Sandra Molina |
| Ordering Provider | Frank Smith |
| Entering Organization | Shoreline Pediatrics |
| Vaccine Event information source | New immunization record (NIP001 00) |
| Value/Text for Vaccine Type | Influenza, injectable,quadrivalent, preservative free, pediatric (CVX 161), FLUZONE QUADRIVALENT (NDC 49281-0514-25) |
| Date/Time of Start of Administration | Current Date |
| Vaccine Administered | Influenza, injectable,quadrivalent, preservative free, pediatric (CVX 161), FLUZONE QUADRIVALENT (NDC 49281-0514-25) |
| VFC lot (not administered) | D8043IN8422 |
| Substance Expiration Date | 10/31/2016 |
| Substance Manufacturer Name | Sanofi Pasteur (MVX PMC) |
| Alert | Patient is not VFC Eligible |

The Provider selects a non-VFC Lot:

| | |
|-------------------------------|-------------|
| Vaccine Lot # (administered): | D8043IN8855 |
| Vaccine Expiration Date: | 8/25/2015 |

Notes for Testers

No Note

3.3.7. Record Influenza Vaccine administration for Juan Marcel Gonzales

Test Step Type: SUT MANUAL

The EMR is able to document all attributes associated with the new vaccine administration.

Test Story

Description

The nurse administers the inactivated influenza vaccine
• Documents all required information for each vaccine

Comments

No Comments

Pre Condition

Order is placed for inactivated influenza vaccine.

Post Condition

The inactivated influenza vaccine administration is recorded in the EMR.

Test Objectives

Record Vaccine Administration: The EHR or other clinical software system records information about each vaccine administered. The EHR records this information as structured data elements, including, at a minimum: date administered, administering clinician, site of administration (e.g., left arm), immunization type, product, lot number, manufacturer, Vaccine Information Statement date, and quantity of vaccine/dose size.

Evaluation Criteria

EMR Records the following vaccine administration information:

| | |
|---------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------|
| Entered BY | Sandra Molina |
| Ordering Provider | Frank Smith |
| Entering Organization | Shoreline Pediatrics |
| Vaccine Event information source (Administration Notes) | New immunization record (NIP001 00) |
| Value/Text for Vaccine Type | Influenza, injectable,quadrivalent, preservative free, pediatric (CVX 161), FLUZONE QUADRIVALENT (NDC 49281-0514-25) |
| Date/Time of Start of Administration | Current Date |
| Vaccine Administered | Influenza, injectable,quadrivalent, preservative free, pediatric (CVX 161), FLUZONE QUADRIVALENT (NDC 49281-0514-25) |
| Administered Amount (of Vaccine) | 0.25 |
| Administered Units (of Measure) | mL |
| Administering Provider | Sandra Molina |
| Administered-at Location | 400 Shoreline Drive, Stamford Connecticut 06901 |
| Lot Number | D8043IN8855 |
| Substance Expiration Date | 10/31/2016 |
| Substance Manufacturer Name | Sanofi Pasteur (MVX PMC) |
| Completion Status | CP |
| Route of Administration | Intramuscular (NCIT C28161, HL70162: IM) |
| Administration Site | Left Thigh (HL7 LT) |
| VFC Eligibility | No |

Notes for Testers

3.4. Juan Marcel Gonzales Transmit Immunization Report

Send the Immunization Report to the Immunization Registry (VXU/Z22) for Juan Marcel Gonzales.

Test Story

| |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description |
| Following the vaccinations given during the visit, the EMR transmits an Immunization report to the Immunization Registry using the VXU/Z22. The Vaccination report includes all newly administered vaccines. The report should include vaccines incorrectly recorded in the IIS. The report MAY send the immunizations that the EMR imported from the IIS. |

3.4.1. Transmit the Immunization Report for Juan Marcel Gonzales

Test Step Type: SUT_INITIATOR

The EMR sends the Immunization Report to the Immunization Registry (VXU/Z22) for updated vaccination information from the visit. This includes all newly administered vaccines and may include historical information updated in the EMR during the visit.

Test Story

| |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description |
| Following the vaccinations given during the visit, the EMR transmits an Immunization report to the Immunization Registry using the VXU/Z22. The Vaccination report includes all newly administered vaccines. The report MAY send the immunizations that the EMR imported from the IIS. |
| Comments |
| The Report must include all newly administered vaccines in any order. The report may include the information imported from the IIS. |
| Pre Condition |
| The vaccines for the visit have been administered. |
| Post Condition |
| The Immunization Report has been transmitted to the IIS using a valid Z22 VXU in accordance with the test data correctly and without omission. |
| Test Objectives |
| Transmit Standard Patient Immunization History Report: The EHR or other clinical software system directly or indirectly through an intermediary creates and transmits a report of a patient's immunization history to public health immunization registries. The VXU/Z22 message passes validation using the NIST Immunization VXU Validation Tool (Z22) (context-free). The content of the message correctly reflects the test data (context-based) in accordance with the Test Data Specification and the Message Content. |
| Evaluation Criteria |
| The VXU/Z22 message passes validation using the NIST Immunization VXU Validation Tool (Z22) (context-free). The content of the message correctly reflects the test data (context-based) in accordance with the Test Data Specification and the Message Content. |

Test Data Specification

Patient Information

| Element | Data |
|--------------------------|-----------------------------------------|
| Patient Name | Juan Marcel Gonzales |
| Mother's Maiden Name | Anita Morales |
| ID Number | 123456 987633 |
| Date/Time of Birth | 03/04/2014 11:00 |
| Administrative Sex | Male |
| Patient Address | 4623 Standish Way Stamford CT 06903 USA |
| Local Number | (203)555-1213 |
| Race | White |
| Ethnic Group | Hispanic or Latino |
| Multiple Birth Indicator | No |
| Birth Order | |

Immunization Registry Information

| Element | Data |
|---------------------------------------------|------------------------------|
| Immunization Registry Status | Active |
| Immunization Registry Status Effective Date | 03/04/2014 |
| Publicity Code | Reminder/Recall - any method |
| Publicity Code Effective Date | 03/04/2014 |
| Protection Indicator | |
| Protection Indicator Effective Date | |

Guardian or Responsible Party

| Element | Data |
|--------------|-------------------------------------|
| Name | Manuel Marcel Gonzales |
| Relationship | Father |
| Address | 4623 Standish Way Stamford CT 06903 |
| Phone Number | (203)555-1213 |

Vaccine Administration Information[*]**Vaccine Administration Information**

| Element | Data |
|------------------------------------|--------------------------------|
| Administered Vaccine | Hepatitis B |
| Date/Time Start of Administration | 03/03/2014 |
| Administered Amount | 999 |
| Administered Units | |
| Administration Notes | |
| Administering Provider | J. Martinez |
| Substance Lot Number | 6332FK34 |
| Substance Expiration Date | 12/14/2014 |

3.5.1. Produce an immunization report for Juan Marcel Gonzales including all history

Test Step Type: SUT_MANUAL

The EMR is used to produce an immunization report for the patient including all history (the report can be provided in various formats - e.g., print, send to patient portal, etc.).

Test Story

Description

Following the vaccination visit, the provider uses the EMR to produce an immunization report for the patient including all history (the report can be provided in various formats - e.g., print, send to patient portal, etc.)

Comments

No Comments

Pre Condition

Initial Data Load completed with demographic data, vaccination history, and clinical history. Historical Vaccination reconciled and loaded into the EMR. New vaccinations have been administered.

Post Condition

The patient/parent has been provided a patient immunization history report.

Test Objectives

Produce Standard Patient Immunization History Report: The EHR or other clinical software system produces a report of a patient's immunization history that is appropriate for various entities, such as schools and day-care centers.

Evaluation Criteria

The following patient demographics are displayed:

Patient Identifier Number: Vendor Assigned

Patient Identifier Type Code: Vendor Assigned

Patient Name: Juan Marcel Gonzales

Date/Time of Birth: 3/4/2014 11:00am

Sex: Male

Patient Address: 4623 Standish Way, Stamford, CT 06903

Multiple Birth: N

Birth Order: NA

The following Vaccination History is displayed:

Vaccine Group: Hep B Peds NOS

Administered: hepatitis B vaccine, pediatric or pediatric/adolescent dosage (CVX 08)

ENGERIX-B (NDC 58160-0820-11)"

Date Administered: 3/4/2014

Entering Organization: Oceanview Pediatrics
Administered Amt: .05 mL
Administering Provider: J. Martinez
Administered at Location: 4253 Standish Way, Stamford Connecticut 06903
Lot#: 6359RT47
Exp Date: 10/31/2016
Manufacturer: GlaxoSmithKline Biologicals SA (MVX SKB)
Route: Intramuscular (NCIT C28161, HL70162: IM)
Site: Left Deltoid (HL7 LD)
Vaccine Group: MMRV
Administered: measles, mumps, rubella, and varicella virus vaccine (CVX 94)
ProQuad (NDC 00006-4999-00)"
Date Administered: 10/20/2015
Additional Observations:
Dose #: 1
Doses in Series: 2
Valid Dose: Y
Ordering Provider: J. Rodriguez

Entered By: J. Martinez

Latest Date to Give: 3/1/2020
Overdue Date: 3/2/2020
Immunization Schedule: ACIP

Notes for Testers

No Note

4. Mariela Gonzales Morales Visit

No Description

4.1. Query the Registry for Mariela Gonzales Morales

EMR Generates a Z44 query to the Immunization Registry to retrieve the Evaluated History and Forecast for Mariela Gonzales Morales.

Test Story

| |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description |
| Querying the registry will consist of the vendor creating Z44 messages for Mariela Gonzales Morales to be sent to the registry. The response will be processed as part of the 'Display, Reconcile, Import and Update Immunization Information' activity. |

4.1.1. Select Patient Mariela Gonzales Morales

Test Step Type: SUT MANUAL

Select patient Mariela Gonzales Morales, Infant Twin, distinguishing the patient from other patients with similar demographics (twins).

Test Story

| |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description Mariela Gonzales Morales is selected as the patient and her record is opened in the EMR. |
| Comments No Comments |
| Pre Condition Mariela Gonzales Morales Initial Data Load completed. |
| Post Condition Mariela Gonzales Morales is the active working patient in the EMR. |
| Test Objectives <i>Select New Patient:</i> The system must allow a user to enter distinguishing information about patients so that providers can uniquely identify patients who have similar sounding names or other similar identifying information. For example, twins living in the same household will have similar dates of birth, addresses, and may have similar names. EHRs or other clinical software must be able to store information to successfully match with patients in immunization registries, if the information is available. The information includes the mother's maiden name, whether the patient was part of a multiple birth, and the order of the multiple birth. This information allows the provider to correctly identify the patient and also helps assure a match when the EHR sends the patient's information to external systems such as an immunization registry. |
| Evaluation Criteria Tester shall verify that the product can distinguish Mariela Gonzales Morales from similar sounding names and her twin using all of the pediatric demographics: <ul style="list-style-type: none">• Patient ID (previously listed as "Medicaid Number") -Vendor supplied• Patient ID: Assigning Authority ID (i.e., owning source)/Facility Name -Shoreline Pediatrics• Patient ID: Type (e.g., medical record number, IIS ID) -Vendor supplied• Patient Name: First - Mariela• Patient Name: Middle - Gonzales• Patient Name: Last - Morales• Patient Date of Birth - 10/01/2015• Birth Time - 11:00• Patient Gender (Administrative Sex) -F• Patient Multiple Birth Indicator - Yes• Patient Birth Order - 1• Responsible Person Name: First - Joanna• Responsible Person Name: Middle - Gonzales• Responsible Person Name: Last - Morales• Responsible Person Name: Relationship to Patient - Mother• Mother's Name: First - Joanna• Mother's Name: Middle - Gonzales• Mother's Name: Last - Morales• Mother's Name: Maiden Last - Gonzales• Patient Address: Street -3321 Standish Way• Patient Address: City -Stamford• Patient Address: State -CT• Patient Address: Country -US• Patient Address: Zipcode - 06903• Patient Address: County of Residence -Fairfield• Race - White• Ethnicity - Hispanic or Latino• Birthing Facility Name (Birth Delivery Location Address BDL) -Stamford Regional Hospital 15 Atlantic Avenue, Stamford Connecticut 06903• Patient Birth State - CT• Patient Primary Language - English• Patient Telephone Number - (203) 555-1214• Patient Telephone Number Type (e.g., home, cell) - home• Patient E-mail Address -• Publicity Code• Protection Indicator• Protection Indicator Effective Date• Immunization Registry Status• Preferred Contact Method -Phone |
| Notes for Testers No Note |

4.1.2. Query Registry for vaccination history and forecast for Mariela Gonzales Morales

Test Step Type: SUT_INITIATOR

The EMR generates a Z44 query for immunization history and forecast correctly and without omission according to supplied test data.

Test Story

| |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description |
| The provider uses the EMR to query the Immunization Registry for an Evaluated History and Forecast based on information known to the Immunization Registry. |
| Comments |
| No Comments |
| Pre Condition |
| Mariela Gonzales Morales Initial Data Load is completed. |
| Post Condition |
| The Immunization Registry responds with Evaluated Vaccine History and Forecast for Mariela Gonzales Morales. |
| Test Objectives |
| Real Time Request/Receive Patient Immunization History: The system sends a request to the public health immunization registry "on demand" (e.g., those without scheduled appointments). The request includes the identifying information the immunization registry needs to match each patient with those in the registry including, if present, the mother's maiden name, a multiple birth indicator, and the birth order. The request also is sent in a pre-determined format the registry can read and interpret (Query Response Grammar (RSP) – HL7 version 2.5.1 Implementation Guide for Immunization Messaging Release 1.5). |
| Evaluation Criteria |
| Tester shall verify that the vendor can produce a valid Z44 query in accordance with the test data correctly and without omission. |
| Tester shall verify that the data in the message corresponds to the data in the EMR and contains all test data attributes supplied. |
| Notes for Testers |
| No Note |

4.2. Mariela Gonzales Morales Display Reconcile Update Immunization Information

Using the Z42 Response to Immunization Registry Query, the EMR displays the Evaluated History and Forecast to the user for reconciliation and update.

Test Story

| |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description |
| The vendor will receive information back from the registry and show the ability to view and reconcile, and import the information returned by the registry (NOTE: the Z42 message will be provided either manually, or as part of the tool). This test will also look at the system's ability to view the forecast returned by the registry, and create a new forecast after reconciling the information. |

4.2.1. View and import response to request for vaccination history for Mariela Gonzales Morales

Test Step Type: TA_RESPONDER

The EMR displays the Immunization History results (Z42) returned in response to the Z44 Query and import them into the EMR.

Test Story

Description

The physician accesses the record for Mariela Gonzales Morales and:

• Accepts the single vaccine in the registry record into the EHR history

Comments

There is no reconciliation step as there are no historical immunizations in the EMR. All will be imported from the Z42 response.

Pre Condition

A Z44 query has been submitted to the Immunization Registry and a Z42 response is provided back to the EMR and the response is available in the EMR for reconciliation and import.

Post Condition

Evaluated Immunization History returned from the registry is reconciled and imported into the patient record (Mariela Gonzales Morales)

Test Objectives

Request/Receive Patient Immunization Data and Identify Source: The EHR or other clinical software is able to store immunization history accepted electronically from other sources (such as a public health immunization registry consistent with HL7 version 2.5.1, Implementation Guide for Immunization Messaging Release 1.5) or communicated by the patient and manually entered by the clinician. When viewing such information, the provider can determine which immunizations were administered by the practice, which were entered manually as patient-reported, and which were accepted electronically from the public health registry.

Evaluation Criteria

1. The EMR displays the information returned from the Immunization Registry according to the Juror Document.

2. The user imports returned vaccinations as follows:

a. Vaccinations Imported:

hepatitis B vaccine, pediatric or pediatric/adolescent dosage (CVX 08) administered 3/30/2015

Notes for Testers

Test Data Specification

Patient Information

| Element | Data |
|--------------------------|-----------------------------------------|
| Patient Name | BG2 Morales |
| Mother's Maiden Name | Joanna Morales |
| ID Number | 123456 987633 |
| Date/Time of Birth | 03/30/2015 11:00 |
| Administrative Sex | Female |
| Patient Address | 3321 Standish Way Stamford CT 06903 USA |
| Local Number | (203)555-1212 |
| Race | White |
| Ethnic Group | Hispanic or Latino |
| Multiple Birth Indicator | No |
| Birth Order | |

Vaccine Administration Information[*]

Vaccine Administration Information

| Element | Data |
|------------------------------------|--------------------------------|
| Administered Vaccine | Hepatitis B |
| Date/Time Start of Administration | 10/01/2015 |
| Administered Amount | 0.5 |
| Administered Units | |
| Administration Notes | |
| Administering Provider | Susan Pike |
| Substance Lot Number | 6332FL432 |
| Substance Expiration Date | 12/14/2015 |
| Substance Manufacturer Name | GlaxoSmithKline Biologicals SA |
| Substance/Treatment Refusal Reason | |
| Completion Status | Complete |
| Action Code | Add |
| Route | IM |
| Administration Site | Left Thigh |
| Entering Organization | Stamford Regional Hospital |
| Entered By | Susan Pike |
| Ordered By | Justin Parker |

4.2.2. View the vaccination forecast for Mariela Gonzales Morales returned by the Immunization Registry

Test Step Type: TA_RESPONDER

The EMR displays the current Immunization Forecast to the user for Mariela Gonzales Morales as returned by the Immunization Registry Z42 response.

Test Story

| |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description The physician accesses the record for Mariela Gonzales Morales and: • Views the vaccine forecast provided by the Immunization Registry |
| Comments No Comments |
| Pre Condition A Z44 query has been submitted to the Immunization Registry, a Z42 response is provided back to the EMR, and the vaccine forecast from the response is available in the EMR for viewing |
| Post Condition The vaccine forecast from the Immunization Registry is available for viewing in the EMR. |
| Test Objectives View Immunization Forecast: The system provides a view of the immunization forecast provided by the public health immunization registry (IIS). The display includes the forecast from the registry and includes recommended vaccination dates, minimum (earliest) date, ideal date, and maximum (latest) date for each vaccine included in the forecast. |
| Evaluation Criteria The EMR displays the information returned from the Immunization Registry, including: 1. Tester verifies that the vendor can display the immunization forecast based upon the reconciled vaccination history: 2. Verify that the EMR includes in the vaccine forecast: Hep B Peds NOS due on 6/29/2015 DTaP due on 7/29/2015 Hib due on 7/29/2015 IPV due on 7/29/2015 Pneumococcal conjugate due on 7/29/2015 Rotavirus due on 7/29/2015 HepA due on 5/29/2016 MMR due on 5/29/2016 Varicella due on 5/29/2016 influenza, unspecified formulation due on Nov 26, 2015 or later |
| Notes for Testers No Note |

Test Data Specification

Patient Information

| Element | Data |
|--------------------------|-----------------------------------------|
| Patient Name | BG2 Morales |
| Mother's Maiden Name | Joanna Morales |
| ID Number | 123456 987633 |
| Date/Time of Birth | 03/30/2015 11:00 |
| Administrative Sex | Female |
| Patient Address | 3321 Standish Way Stamford CT 06903 USA |
| Local Number | (203)555-1212 |
| Race | White |
| Ethnic Group | Hispanic or Latino |
| Multiple Birth Indicator | No |
| Birth Order | |

Vaccine Administration Information[*]

Vaccine Administration Information

| Element | Data |
|------------------------------------|--------------------------------|
| Administered Vaccine | Hepatitis B |
| Date/Time Start of Administration | 10/01/2015 |
| Administered Amount | 0.5 |
| Administered Units | |
| Administration Notes | |
| Administering Provider | Susan Pike |
| Substance Lot Number | 6332FL432 |
| Substance Expiration Date | 12/14/2015 |
| Substance Manufacturer Name | GlaxoSmithKline Biologicals SA |
| Substance/Treatment Refusal Reason | |
| Completion Status | Complete |
| Action Code | Add |
| Route | IM |
| Administration Site | Left Thigh |
| Entering Organization | Stamford Regional Hospital |
| Entered By | Susan Pike |
| Ordered By | Justin Parker |

| Element | Data |
|----------------------------|----------------|
| vaccine type | Hep B Peds NOS |
| dose number in series | |
| number of doses in series | |
| Immunization Schedule used | ACIP |
| Dose validity | |

Vaccine Administration Information

| Element | Data |
|------------------------------------|------------------|
| Administered Vaccine | no vaccine admin |

4.2.3. View the vaccination forecast for Mariela Gonzales Morales

Test Step Type: SUT MANUAL

The EMR displays the current Immunization Forecast to the user for Mariela Gonzales Morales either as returned by the IIS in prior step, or as generated thru any local means.

Test Story

| |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description The physician accesses the record for Mariela Gonzales Morales and: <ul style="list-style-type: none">&bull; Views the vaccine forecast (either as provided by the Immunization Registry or as determined through EMR defined methods) |
| Comments No Comments |
| Pre Condition EMR Vaccine History is imported from the Immunization History returned from the Immunization Registry (previous step 'View and import response to request for vaccination history for Mariela Gonzales Morales) |
| Post Condition A vaccine forecast based upon the imported vaccine history is available to the user. |
| Test Objectives View Reconciled Immunization Forecast: The EHR or other clinical software system has the ability to re-evaluate and update the immunization forecast using a patient’s newly updated immunization history, where the updated forecast results from the reconciliation of immunization data contained in the public health immunization registry with immunization data contained in the EHR. Processing the new forecast can be internal to the EHR or it can use an external forecasting service. |
| Evaluation Criteria 1. Tester verifies that the vendor can display the immunization forecast based upon the reconciled vaccination history: 2. Verify that the EMR includes in the vaccine forecast: Hep B Peds NOS due on 6/29/2015 DTaP due on 7/29/2015 Hib due on 7/29/2015 IPV due on 7/29/2015 Pneumococcal conjugate due on 7/29/2015 Rotavirus due on 7/29/2015 HepA due on 5/29/2016 MMR due on 5/29/2016 Varicella due on 5/29/2016 influenza, unspecified formulation due on Nov 26, 2015 or later |
| Notes for Testers No Note |

4.3. Mariela Gonzales Morales, Enter Orders and Immunizations

Orders and Immunization events, non-administrations, and alerts presented for current visit.

Test Story

| |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description |
| This test will consist of ordering vaccines for the test patients, reviewing any alerts caused by specific scenarios, and documenting vaccinations administered to the patients. |
| Comments |

4.3.1. Enter Initial Clinical Information for Mariela

Test Step Type: SUT_MANUAL

The EHR captures structured data indicating that Mariela has a fever in the current visit.

Test Story

Description

The triage nurse enters basic information on Mariela Gonzales Morales – she has a fever (Temperature of 100.8o F).

Comments

No Comments

Pre Condition

The EMR has recorded all of the pediatric demographic in the record created for Mariela Gonzales Morales.

Post Condition

The clinical record for Mariela Gonzales Morales indicates that she currently has a fever (temperature 100.8oF)..

Test Objectives

Supporting data for documenting contraindications (it could also trigger an alert as a locally configured alert rule): **Modify Antigen Recommendations Based on Active Diagnoses:** The system notifies the provider of any conflicts between recommended vaccines in the updated forecast and the patient’s current or historical diagnoses.

Evaluation Criteria

Evaluation Criteria: Vendor successfully records all clinical data provided with all required attributes indicated by [Y]:

| | |
|------------------------------------------------------------------------------------------|--------------------------------------------------------|
| Vital Signs | Fever of 100.1 (@code LOINC 8310-5 @value 100.1) |
| Vital Signs Observation Date | Date of current visit |
| Problems (If vendor uses problems for alert computations, then this should be included.) | Problem list: (Low grade pyrexia (finding) 304213008) |
| Problem Observation Date | Date of current visit |

Notes for Testers

No Note

4.3.2. Enters a deferral for the vaccines due

Test Step Type: SUT MANUAL

Enters a deferral for vaccines due (Hepatitis B, DTaP, Hib, Pneumococcal conjugate (PCV13) and Rotavirus) due to medical reason, indicating low grade fever, and defers for 1 month.

Test Story

Description

The physician accesses the record for Mariela Gonzales Morales and:

• Enters a deferral for the vaccines due (Hepatitis B, DTaP, Hib, Pneumococcal conjugate (PCV13) and Rotavirus) due to medical reason, indicating low grade fever, and defers for 1 month

Comments

No Comment

Pre Condition

Prior Immunization History loaded and reconciled from the Immunization Registry. Vaccine forecast is available in the EMR indicating 5 vaccines are due: Hepatitis B, DTaP, Hib, Pneumococcal conjugate (PCV13) and Rotavirus

Post Condition

Vaccine deferral is recorded indicating the medical reason of low grade fever

Test Objectives

Record Vaccine Administration Deferral: The EHR or other clinical software system allows a user to enter a reason or reasons why a specific immunization was not given to a patient (e.g., due to contraindication, refusal, etc.). The system also stores that information in a structured way so it can be reported and analyzed as needed.

Evaluation Criteria

EMR Records the following vaccine administration information:

| | |
|---------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Entered BY | Sandra Molina |
| Ordering Provider | Frank Smith |
| Entering Organization | Shoreline Pediatrics |
| Vaccine Event information source | New immunization record (NIP001 00) hepatitis B vaccine, pediatric or pediatric/adolescent dosage (CVX 08) diphtheria, tetanus toxoids and acellular pertussis vaccine, 5 pertussis antigens (CVX 106) Haemophilus influenzae type b vaccine, PRP-OMP conjugate (CVX 49) pneumococcal conjugate vaccine, 13 valent (CVX 133) rotavirus, live, monovalent vaccine (CVX 119) |
| Value/Text for Vaccine Type | |
| Date/Time Vaccine not administered was recorded | Current Date |
| Alert | contraindication of fever |
| Substance/Treatment Deferral Start Date: Vaccination contraindication/precaution effective date (30946-8 LOINC) | Current Date |
| Substance/Treatment Deferral End Date/Vaccination temporary contraindication/precaution expiration date (30944-3 LOINC) : | Current Date +30 Days |
| Substance/Treatment Deferral Contraindication: Vaccination contraindication/precaution (30945-0 LOINC): | current fever with moderate-to-severe illness (PHVS_VaccinationContraindication_IIS - VXC23) |
| Completion Status: | NA |
| Date/Time Vaccine Deferral was recorded: | Current Date |

Notes for Testers

No Note

4.4. Mariela Gonzales Morales Transmit Immunization Report

Send the Immunization Report to the Immunization Registry (VXU/Z22) for Mariela Gonzales Morales.

Test Story

| |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description |
| Following the vaccinations given during the visit, the EMR transmits an Immunization report to the Immunization Registry using the VXU/Z22. The Vaccination report includes all newly administered vaccines. The report should include vaccines incorrectly recorded in the IIS. The report MAY send the immunizations that the EMR imported from the IIS. |

4.4.1. Transmit the Immunization Report for Mariela Gonzales Morales

Test Step Type: SUT_INITIATOR

The EMR sends the Immunization Report to the Immunization Registry (VXU/Z22) for updated vaccination information from the visit. This includes the vaccine deferrals and may include historical information updated in the EMR during the visit.

Test Story

| |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description |
| Following the visit, the EMR transmits an Immunization report to the Immunization Registry using the VXU/Z22. The Vaccination report includes the vaccine deferrals. The report MAY send the immunizations that the EMR imported from the IIS. |
| Comments |
| The Report must include all vaccine deferrals recorded in the EMR in any order. The report may include the information imported from the IIS |
| Pre Condition |
| The vaccines for the visit have been administered. |
| Post Condition |
| The Immunization Report has been transmitted to the IIS using a valid Z22 VXU in accordance with the test data correctly and without omission. |
| Test Objectives |
| Transmit Standard Patient Immunization History Report: The EHR or other clinical software system directly or indirectly through an intermediary creates and transmits a report of a patient's immunization history to public health immunization registries. |
| Evaluation Criteria |
| The VXU/Z22 message passes validation using the NIST Immunization VXU Validation Tool (Z22) (context-free). The content of the message correctly reflects the test data (context-based) in accordance with the Test Data Specification and the Message Content. The message must contain all deferrals recorded in the EMR. Current Date is expected for the Non-Administration date and deferral date. |
| Notes for Testers |
| No Note |

Test Data Specification
Patient Information

| Element | Data |
|--------------------------|-----------------------------------------|
| Patient Name | Mariela Gonzales Morales |
| Mother's Maiden Name | Joanna Gonzales |
| ID Number | 123456 987633 |
| Date/Time of Birth | 10/01/2015 11:15 |
| Administrative Sex | Female |
| Patient Address 1 | 3321 Standish Way Stamford CT 06903 USA |
| Patient Address 2 | 325 Shorline Drive Stamford CT 06901 |
| Local Number | (203)555-1214 |
| Race | White |
| Ethnic Group | Hispanic or Latino |
| Multiple Birth Indicator | No |
| Birth Order | |

Immunization Registry Information

| Element | Data |
|---------------------------------------------|------------------------------|
| Immunization Registry Status | Active |
| Immunization Registry Status Effective Date | 07/01/2012 |
| Publicity Code | Reminder/Recall - any method |
| Publicity Code Effective Date | 07/01/2012 |
| Protection Indicator | |
| Protection Indicator Effective Date | |

Guardian or Responsible Party

| Element | Data |
|----------------|-------------------------------------|
| Name | Joanna Gonzales Morales |
| Relationship | Mother |
| Address | 4623 Standish Way Stamford CT 06903 |
| Phone Number | (203)555-1213 |

Vaccine Administration Information[*]**Vaccine Administration Information**

| Element | Data |
|------------------------------------|---------------------------------------------------------------|
| Administered Vaccine | hepatitis B vaccine, pediatric or pediatric/adolescent dosage |
| Date/Time Start of Administration | 10/01/2015 |
| Administered Amount | 999 |
| Administered Units | |
| Administration Notes | Historical information - from public agency |
| Administering Provider | Lisa Sirtis |
| Substance Lot Number | 6332FK33 |
| Substance Expiration Date | 12/14/2010 |
| Substance Manufacturer Name | GlaxoSmithKline Biologicals SA |
| Substance/Treatment Refusal Reason | |
| Completion Status | Complete |
| Action Code | Add |
| Route | IM |
| Administration Site | Left Thigh |
| Entering Organization | Shoreline Hospital |
| Entered By | Lisa Sirtis |
| Ordered By | Jane Carter |

Vaccine Administration Information

| Element | Data |
|------------------------------------|----------------------------------------------|
| Administered Vaccine | hepatitis B vaccine, unspecified formulation |
| Date/Time Start of Administration | 10/31/2015 |
| Administered Amount | 999 |
| Administered Units | |
| Administration Notes | |
| Administering Provider | |
| Substance Lot Number | |
| Substance Expiration Date | |
| Substance Manufacturer Name | |
| Substance/Treatment Refusal Reason | |
| Completion Status | Not Administered |
| Action Code | Add |
| Route | |
| Administration Site | |
| Entering Organization | Shoreline Pediatrics |
| Entered By | Sandra Molina |
| Ordered By | Frank Smith |

| Element | Data |
|-------------------------------------------------------------------|-----------------------------------------------|
| Vaccination contraindication | current fever with moderate-to-severe illness |
| Vaccination contraindication/precaution effective date | 07/15/2015 |
| Vaccination temporary contraindication/precaution expiration date | 12/01/2015 |

Vaccine Administration Information

| Element | Data |
|------------------------------------|-------------------------------|
| Administered Vaccine | DTaP, unspecified formulation |
| Date/Time Start of Administration | 10/31/2015 |
| Administered Amount | 999 |
| Administered Units | |
| Administration Notes | |
| Administering Provider | |
| Substance Lot Number | |
| Substance Expiration Date | |
| Substance Manufacturer Name | |
| Substance/Treatment Refusal Reason | |
| Completion Status | Not Administered |
| Action Code | Add |

4.5.1. Produce an immunization report for Juan Marcel Gonzales including all history

Test Step Type: SUT MANUAL

The EMR is used to produce an immunization report for the patient including all history (the report can be provided in various formats - e.g., print, send to patient portal, etc.).

Test Story

Description

Following the vaccination visit, the provider uses the EMR to produce an immunization report for the patient including all history (the report can be provided in various formats - e.g., print, send to patient portal, etc.)

Comments

No Comments

Pre Condition

Initial Data Load completed with demographic data, vaccination history, and clinical history. Historical Vaccination reconciled and loaded into the EMR. New vaccinations have been administered.

Post Condition

The patient/parent has been provided a patient immunization history report.

Test Objectives

Produce Standard Patient Immunization History Report: The EHR or other clinical software system produces a report of a patient's immunization history that is appropriate for various entities, such as schools and day-care centers.

Evaluation Criteria

The following patient demographics are displayed:

Patient Identifier Number: Vendor Supplied

Patient Identifier Type Code: Vendor Supplied

Patient Name: Mariela Gonzales Morales

Date/Time of Birth: 10/1/2015 11:00am

Sex: Female

Patient Address: 3321 Standish Way, Stamford, CT 06903

Multiple Birth: Y

Birth Order: 1

The following Vaccination History is displayed:

Vaccine Group: Hep B Peds NOS

Administered: hepatitis B vaccine, pediatric or pediatric/adolescent dosage (CVX 08)

ENGERIX-B (NDC 58160-0820-11)"

Date Administered: 10/1/2015

Additional Observations:

Dose #: 1

Doses in Series: 3

Valid Dose: Y

Ordering Provider: Jane Carter

Entered By: Lisa Sirtis

Entering Organization: Shoreline Hospital

Administered Amt: .05 mL

Administering Provider: Jane Carter

Administered at Location: 325 Shoreline Drive,

Stamford Connecticut 06901

Lot#: 6332FL432

Exp Date: 12/14/2015

Manufacturer: GlaxoSmithKline Biologicals SA (MVX SKB)

Route: Intramuscular (NCIT C28161, HL70162: IM)

Site: Left Thigh (HL7 LT)

5. Juana Maria Gonzales Morales Visit

No Description

5.1. Query the Registry for Juana Maria Gonzales Morales.

EMR Generates a Z44 query to the Immunization Registry to retrieve the Evaluated History and Forecast for Juana Maria Gonzales Morales

Test Story

| |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description |
| Querying the registry will consist of the vendor creating Z44 messages for Juana Maria Gonzales Morales to be sent to the registry. The response will be processed as part of the 'Display, Reconcile, Import and Update Immunization Information' activity. |

| No Note |

5.1.1. Select Patient Juana Maria Gonzales Morales

Test Step Type: SUT MANUAL

Select patient Juana Maria Gonzales Morales, Infant Twin, distinguishing the patient from other patients with similar demographics (twins).

Test Story

Description

Juana Maria Gonzales Morales is selected as the patient and her record is opened in the EMR.

Comments

No Comments

Pre Condition

Juana Maria Gonzales Morales Initial Data Load completed.

Post Condition

Juana Maria Gonzales Morales is the active working patient in the EMR.

Test Objectives

Select New Patient: The system must allow a user to enter distinguishing information about patients so that providers can uniquely identify patients who have similar sounding names or other similar identifying information. For example, twins living in the same household will have similar dates of birth, addresses, and may have similar names. EHRs or other clinical software must be able to store information to successfully match with patients in immunization registries, if the information is available. The information includes the mother's maiden name, whether the patient was part of a multiple birth, and the order of the multiple birth. This information allows the provider to correctly identify the patient and also helps assure a match when the EHR sends the patient's information to external systems such as an immunization registry.

Evaluation Criteria

Tester shall verify that the product can distinguish Juana Maria Gonzales Morales from similar sounding names and her twin using all of the pediatric demographics:

- Patient ID (previously listed as "Medicaid Number") -**Vendor supplied**
- Patient ID: Assigning Authority ID (i.e., owning source)/Facility Name -**Shoreline Pediatrics**
- Patient ID: Type (e.g., medical record number, IIS ID) -**Vendor supplied**
- Patient Name: First - **Juana**
- Patient Name: Middle - **Maria Gonzales**
- Patient Name: Last - **Morales**
- Patient Date of Birth - **10/01/2015**
- Birth Time - **11:15**
- Patient Gender (Administrative Sex) -**F**
- Patient Multiple Birth Indicator - **Yes**
- Patient Birth Order - 2
- Responsible Person Name: First - **Joanna**
- Responsible Person Name: Middle - **Gonzales**
- Responsible Person Name: Last - **Morales**
- Responsible Person Name: Relationship to Patient - **Mother**
- Mother's Name: First - **Joanna**
- Mother's Name: Middle - **Gonzales**
- Mother's Name: Last - **Morales**
- Mother's Name: Maiden Last - **Gonzales**
- Patient Address: Street -**3321 Standish Way**
- Patient Address: City -**Stamford**
- Patient Address: State -**CT**
- Patient Address: Country -**US**
- Patient Address: Zipcode - **06903**
- Patient Address: County of Residence -**Fairfield**
- Race - **White**
- Ethnicity - **Hispanic or Latino**
- Birthing Facility Name (Birth Delivery Location Address BDL) -**Stamford Regional Hospital 15 Atlantic Avenue, Stamford Connecticut 06903**
- Patient Birth State -**CT**
- Patient Primary Language - **English**
- Patient Telephone Number - **(203) 555-1214**
- Patient Telephone Number Type (e.g., home, cell) -**home**
- Patient E-mail Address -
- Publicity Code
- Protection Indicator
- Protection Indicator Effective Date
- Immunization Registry Status
- Preferred Contact Method -**Phone**

Notes for Testers

No Note

5.1.2. Query Registry for vaccination history and forecast for Juana Maria Gonzales Morales

Test Step Type: SUT_INITIATOR

Vendor SHALL be able to Generate a Z44 Query correctly and without omission according to supplied test data

Test Story

| |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description |
| The provider uses the EMR to query the Immunization Registry for an Evaluated History and Forecast based on information known to the Immunization Registry. |
| Comments |
| No Comments |
| Pre Condition |
| Juana Maria Gonzales Morales Initial Data Load is completed. |
| Post Condition |
| The Immunization Registry responds with Evaluated Vaccine History and Forecast for Juana Maria Gonzales Morales. |
| Test Objectives |
| Real Time Request/Receive Patient Immunization History: The system sends a request to the public health immunization registry "on demand" (e.g., those without scheduled appointments). The request includes the identifying information the immunization registry needs to match each patient with those in the registry including, if present, the mother's maiden name, a multiple birth indicator, and the birth order. The request also is sent in a pre-determined format the registry can read and interpret (Query Response Grammar (RSP) – HL7 version 2.5.1 Implementation Guide for Immunization Messaging Release 1.5). |
| Evaluation Criteria |
| Tester shall verify that the vendor can produce a valid Z44 query in accordance with the test data correctly and without omission. |
| Tester shall verify that the data in the message corresponds to the data in the EMR and contains all test data attributes supplied. |
| Notes for Testers |
| No Note |

5.2. Juana Maria Gonzales Morales Display Reconcile Update Immunization Information

Using the Z42 Response to Immunization Registry Query, the EMR displays the Evaluated History and Forecast to the user for reconciliation and update.

Test Story

| |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description |
| The vendor will receive information back from the registry and show the ability to view and reconcile, and import the information returned by the registry (NOTE: the Z42 message will be provided either manually, or as part of the tool). This test will also look at the system's ability to view the forecast returned by the registry, and create a new forecast after reconciling the information. |

5.2.1. View and import response to request for vaccination history for Juana Maria Gonzales Morales

Test Step Type: TA_RESPONDER

The EMR displays the Immunization History results (Z42) returned in response to the Z44 Query and import them into the EMR.

Test Story

| |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description The physician accesses the record for Juana Maria Gonzales Morales and: • Accepts the single vaccine in the registry record into the EHR history |
| Comments There is no reconciliation step as there are no historical immunizations in the EMR. All will be imported from the Z42 response. |
| Pre Condition A Z44 query has been submitted to the Immunization Registry and a Z42 response is provided back to the EMR and the response is available in the EMR for reconciliation and import. |
| Post Condition Evaluated Immunization History returned from the registry is reconciled and imported into the patient record (Juana Maria Gonzales Morales) |
| Test Objectives Request/Receive Patient Immunization Data and Identify Source: The EHR or other clinical software is able to store immunization history accepted electronically from other sources (such as a public health immunization registry consistent with HL7 version 2.5.1, Implementation Guide for Immunization Messaging Release 1.5) or communicated by the patient and manually entered by the clinician. When viewing such information, the provider can determine which immunizations were administered by the practice, which were entered manually as patient-reported, and which were accepted electronically from the public health registry. |
| Evaluation Criteria 1. The EMR displays the information returned from the Immunization Registry according to the Juror Document. 2. The user imports returned vaccinations as follows: a. Vaccinations Imported: hepatitis B vaccine, pediatric or pediatric/adolescent dosage (CVX 08) administered 3/30/2015 |
| Notes for Testers No Note |

DISPLAY VERIFICATION

This Test Case-specific Juror Document provides a checklist for the Tester to use during certification testing for assessing the EHR technology's ability to display required core data elements from the information received in the Evaluated Immunization History and Immunization Forecast Z42 response message. Additional data from the message or from the EHR are permitted to be displayed by the EHR. Grayed-out fields in the Juror Document indicate where no data for the data element indicated were included in the Z42 message for the given Test Case.

The format of this Juror Document is for ease-of-use by the Tester and does not indicate how the EHR display must be designed.

The Evaluated Immunization History and Immunization Forecast data shown in this Juror Document are derived from the Z42 message provided with the given Test Case; equivalent data are permitted to be displayed by the EHR. The column headings are meant to convey the kind of data to be displayed; equivalent labels/column headings are permitted to be displayed by the EHR.

| Patient Information | | |
|----------------------------|-------------------------|----------------|
| Element Name | Data | Tester Comment |
| Patient Identifier | | |

| Namespace ID | MYIIS | |
| ID Type | SR | |
| Name | BG2 Gonzales | |
| Date of Birth | 10/01/2015 | |
| Sex | Female | |
| Address 1 | | |
| Street | 3321 Standish Way | |
| Other Designation | | |
| City | Stamford | |
| State | CT | |
| Zip Code | 06903 | |
| Country | USA | |
| Address Type | L | |
| Mother's Maiden Name | Joanna Gonzales Morales | |

When displayed in the EHR with the Evaluated Immunization History and Immunization Forecast, these patient demographics data may be derived from either the received immunization message or the EHR patient record. When displaying demographics from the patient record, the EHR must be able to demonstrate a linkage between the demographics in the message (primarily the patient ID in PID-3.1) and the patient record used for display to ensure that the message was associated with the appropriate patient.

| Evaluated Immunization History Information | | |
|--------------------------------------------|--------------------------------|----------------|
| Element Name | Data | Tester Comment |
| Entering Organization | Stamford Regional Hospital | |
| Vaccine Group | Hep B Peds NOS | |
| Vaccine Administered | Hepatitis B | |
| Refusal Reason | | |
| Date/Time Administration-Start | 10/01/2015 | |
| Date/Time Administration-End | 10/01/2015 | |
| Administered Amount | 0.5 | |

5.2.2. View the vaccination forecast for Juana Maria Gonzales Morales returned by the Immunization Registry

Test Step Type: TA_RESPONDER

The EMR displays the current Immunization Forecast to the user for Juana Maria Gonzales Morales as returned by the Immunization Registry Z42 response.

Test Story

| |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description |
| The physician accesses the record for Juana Maria Gonzales Morales and: |
| • Views the vaccine forecast provided by the Immunization Registry |
| Comments |
| No Comments |
| Pre Condition |
| A Z44 query has been submitted to the Immunization Registry, a Z42 response is provided back to the EMR, and the vaccine forecast from the response is available in the EMR for viewing |
| Post Condition |
| The vaccine forecast from the Immunization Registry is available for viewing in the EMR. |
| Test Objectives |
| View Immunization Forecast: The system provides a view of the immunization forecast provided by the public health immunization registry (IIS). The display includes the forecast from the registry and includes recommended vaccination dates, minimum (earliest) date, ideal date, and maximum (latest) date for each vaccine included in the forecast. |
| Evaluation Criteria |
| 1. The EMR displays the information returned from the Immunization Registry according to the Juror Document. |
| Notes for Testers |
| No Note |

DISPLAY VERIFICATION

This Test Case-specific Juror Document provides a checklist for the Tester to use during certification testing for assessing the EHR technology's ability to display required core data elements from the information received in the Evaluated Immunization History and Immunization Forecast Z42 response message. Additional data from the message or from the EHR are permitted to be displayed by the EHR. Grayed-out fields in the Juror Document indicate where no data for the data element indicated were included in the Z42 message for the given Test Case.

The format of this Juror Document is for ease-of-use by the Tester and does not indicate how the EHR display must be designed.

The Evaluated Immunization History and Immunization Forecast data shown in this Juror Document are derived from the Z42 message provided with the given Test Case; equivalent data are permitted to be displayed by the EHR. The column headings are meant to convey the kind of data to be displayed; equivalent labels/column headings are permitted to be displayed by the EHR.

| Patient Information | | |

| City | Stamford | |
| State | CT | |
| Zip Code | 06903 | |
| Country | USA | |
| Address Type | L | |
| Mother's Maiden Name | Joanna Gonzales Morales | |

When displayed in the EHR with the Evaluated Immunization History and Immunization Forecast, these patient demographics data may be derived from either the received immunization message or the EHR patient record. When displaying demographics from the patient record, the EHR must be able to demonstrate a linkage between the demographics in the message (primarily the patient ID in PID-3.1) and the patient record used for display to ensure that the message was associated with the appropriate patient.

| Evaluated Immunization History Information | | |
|--------------------------------------------|--------------------------------|----------------|
| Element Name | Data | Tester Comment |
| Entering Organization | Stamford Regional Hospital | |
| Vaccine Group | Hep B Peds NOS | |
| Vaccine Administered | Hepatitis B | |
| Refusal Reason | | |
| Date/Time Administration-Start | 10/01/2015 | |
| Date/Time Administration-End | 10/01/2015 | |
| Administered Amount | 0.5 | |

5.2.3. View the vaccination forecast for Juana Maria Gonzales Morales

Test Step Type: SUT MANUAL

The EMR displays the current Immunization Forecast to the user for Juana Maria Gonzales Morales either as returned by the IIS in prior step, or as generated thru any local means.

Test Story

Description

The physician accesses the record for Juana Maria Gonzales Morales and:

- • Views the vaccine forecast (either as provided by the Immunization Registry or as determined through EMR defined methods)

Comments

No Comments

Pre Condition

EMR Vaccine History is imported from the Immunization History returned from the Immunization Registry (previous step 'View and import response to request for vaccination history for Juana Maria Gonzales Morales)

Post Condition

A vaccine forecast based upon the imported vaccine history is available to the user.

Test Objectives

View Reconciled Immunization Forecast: The EHR or other clinical software system has the ability to re-evaluate and update the immunization forecast using a patient’s newly updated immunization history, where the updated forecast results from the reconciliation of immunization data contained in the public health immunization registry with immunization data contained in the EHR. Processing the new forecast can be internal to the EHR or it can use an external forecasting service.

Evaluation Criteria

1. Tester verifies that the vendor can display the immunization forecast based upon the reconciled vaccination history:
2. Verify that the EMR includes in the vaccine forecast:

Hep B Peds NOS due on 6/29/2015

DTaP due on 7/29/2015

Hib due on 7/29/2015

IPV due on 7/29/2015

Pneumococcal conjugate due on 7/29/2015

Rotavirus due on 7/29/2015

HepA due on 5/29/2016

MMR due on 5/29/2016

Varicella due on 5/29/2016

influenza, unspecified formulation due on Nov 26, 2015 or later

Notes for Testers

No Note

6. Cohort Report

This test will consist of generating a cohort report to list all patients who are overdue for immunizations showing all overdue immunizations with the associated due/overdue dates.

6.1. Overdue Immunizations

List all patients who are overdue for immunizations showing all overdue immunizations.

Test Story

Description

The provider periodically uses the EMR to identify the cohort of patients that are overdue for immunizations along with their contact information in order to send reminder notifications to the patients/parents.

Comments

No Comments

Pre Condition

Initial Data Load completed with demographic data, vaccination history, and clinical history. Historical Vaccination reconciled and loaded into the EMR. The vaccine forecast is available to the EMR.

Post Condition

The Cohort report for all patients that are overdue for immunizations is available to the provider through the EMR.

Test Objectives

Produce Population-Level Report: The EHR or other clinical system generates aggregate, population-level reports based on known patient immunization data.

Evaluation Criteria

The following patient information is provided on the cohort report:

| | |
|-----------------------------------------------------------------------------------|------------------------------|
| Patient Name | Mariela Gonzales Morales |
| Preferred Contact Method | Phone |
| Contact information using preferred contact (email, text, phone, mailing address) | (203) 555-1214 |
| Patient Identifier Number | Vendor Supplied |
| Patient Identifier Type Code | Vendor Supplied |
| Date/Time of Birth | 5/30/2015 11am |
| Sex | Female |
| Vaccine Group | Hep B Peds NOS |
| Latest Date to Give | 5/29/15 |
| Overdue Date | 5/29/15 |
| Dose # | 2 |
| Dose in Series | 3 |
| Link to full record | Vendor Supplied |
